Carbide Insert Supplier—Be sure to measure the insert that came with your tool to make sure you get the right size.

<http://globaltooling.bizhosting.com/products/carbide-insert-knives.html>

If you buy laser cut inlay kits, make sure to double check what kind of pen kit you will need. When buying pen kits, check to see if you need to get bushings and/or a drill bit.

I hope all of this helps out. Feel free to ask any questions that you might have.
